Provided a sufficient number of Subscribers are obtained to cover cost of Publication.

LOVELL'S GAZETTEER AND HISTORY OF CANADA

WILL CONTAIN CONCISE HISTORIES OF

10,000 Cities, Towns, Villages, Hamlets and Settlements in the Dominion of Canada, and descriptions of over 5,000 Bays, Canals, Capes, Creeks, Inlets, Islands, Lakes, Rivers, Water-powers, Waterfalls; Bridges, Forests, Mountains, Precipices, etc.

DESCRIPTIONS AND LOCALITIES OF

Coal, Copper, Gold, Silver, Iron, Lead, and other Mines; of Marble, Stone, Slate, and other Quarries—How to reach them;

Different kinds of TIMBER—Where to be found;

AND THE

FISHING PLACES in the Dominion—what kind of Fish; HUNTING GROUNDS, species of Animals and of Game—how to reach the localities.

THIS WORK WILL CONTAIN **8,000** PAGES IN WHICH WILL BE GIVEN A CONCISE HISTORY OF

10,000 Counties, Districts, Parishes, Townships, Cities, Towns and Villages;

Descriptions of more than 5,000 Islands, Lakes, Rivers, Canals, Water-powers, Waterfalls; Bridges, Mountains, etc., in the Dominion of Canada;

WITH **NINE MAPS** AND SUCH **ILLUSTRATIONS** AS MAY BE **CONTRIBUTED**.

In such a work every Professional Man, every Public and Private Citizen, every Well-Wisher of this Country should send his Name for either Lines, a Province volume, for the complete set of Eleven volumes; or for a PORTRAIT of an Eminent Canadian, or of a former notable resident; a VIEW of a City, Town or Village, of a Lake, a River; a PICTURE of a Church, a Private Residence, a Public Building, a Factory, a Manufactory, a Mill, an Ocean Steamship, or a Lake and River Steamer, towards the embellishment of the pages in each Province volume.

As a beautiful specimen of what the Eight Provincial Maps are to be, the Publisher has issued LOVELL'S MAP OF THE DOMINION, now sold for \$2.

In the event of satisfactory encouragement, this work will be placed in the hands of the Editor-in-Chief, the Assistant Editor, the Editor of Statistics, Eight Superintending Revising-Editors and of One Hundred Province-Editors. The Eleven volumes to be completed and issued in about two years from date of beginning.

Unwearied research can be relied on in putting on record all that can possibly be learned concerning the Provinces. The work will portray the past, from the landing of the first white man to time of publication of LOVELL'S GAZETTEER AND HISTORY OF CANADA.

Let us strive to secure and leave on record a faithful foundation for historians of the future.

I do not hesitate to say that the entire work will be a true and reliable history of this Canada of ours; it will reveal the grandeur of our Country as England's leading Colony, and an ample home for millions.

Let us tell the people abroad the wonderful progress that is being made in our Cities, Towns, Villages, and in our entire country.

When the full history of the places throughout the Dominion is written, Canadians, the people of Great Britain and Ireland, our good neighbors across the line and the people of the outside world will look on our record with amazement.

The following statistics, taken from Government records, are given as a foreshadowing of some of the information which will be carefully gathered for this work, from reliable sources, from the lips of early pioneers, and from gentlemen of unquestioned veracity and literary standing throughout the Dominion.

FIRE, MARINE, AND RAILWAY SALVAGE.

PARENT'S SYSTEM OF SALVAGE,

Saving the lives of several persons in a few seconds.

This System, registered in the United States and Canada, has an acknowledged superiority over all others hitherto known, for its Simplicity and Lightness, and, at the same time, for the great Strength of the several Apparatuses of which it is composed, and by the use of which Firemen, or other persons, can act with wonderful quickness and perfect security, either in extinguishing an incipient fire, or in saving the lives of persons exposed to a certain and terrible death in case the fire cannot be controlled.

The Apparatuses, which can, at all times, be kept near at hand and ready for immediate use, consist of :

1. A SINGLE AND DOUBLE HARNESS, which the Fireman, or other person, can put on in a few seconds of time: the first, made expressly for carrying the Hose and for maintaining a firm position on the Ladder, is equally useful to the Sailor during rough weather; the second, which can be used like the first, enables the Fireman, moreover, to maintain a firm and secure stand when hooking the Ladders to the windows of a building on fire, enabling him to ascend immediately to rescue the unfortunate persons who, without his prompt and timely assistance, would be condemned to perish.

The strong Hooks with which the Harnesses are provided enable the Fireman to secure himself to the Ladders, or any projecting object, and to act with the greatest ease and freedom, without danger.

With the light Chain attached to the Harnesses, the Fireman can, by rolling the Chain round the Hose, carry the same, hung at his side, to any height,—for he always has the use of his hands while ascending the Ladders; the same Chain allows the Sailor to secure himself to the wheel of the rudder or to the yard, and when used with the Hook enables the Seaman to maintain himself on a perpendicular rope, or in any other false and perilous position.

2. A Set of PORTABLE LADDERS, 14 feet long, very light in weight, but of great strength, which are hooked in a moment to the windows of the several stories of a building, thus forming a sure and rapid roadway for the water service and the Salvage operation.

3. A PULLEY, for operating a precipitous Salvage: the Pulley is hooked to the head of a Ladder, or to a window frame; the rope, being provided with a strong ring at each extremity, cannot pass out of the Pulley, and the Salvage man, taking hold of the ring retained at the Pulley, is lowered and raised up again, in a few seconds, to any story, by the by-standers who hold the other extremity of the rope.

From the foregoing description of the Apparatuses of which my System is composed (Public Trials have been made by me in Montreal and Quebec with the greatest success), it is quite evident that the Fireman who is provided with them acquires an extraordinary strength and coolness, because he runs no danger himself, and all his energy and presence of mind are employed by him with an astonishing quickness, and he can master a multitude without any effort, and ensure the lives of all. Many accidents must necessarily be prevented by the use of it.

I call the attention of persons, possessing considerable capital and desirous of putting it to good advantage, to consider well the following list :

1. HOOK-AND-BRAKE, for safe standing in dangerous positions, and for operating a precipitous descent.
2. SINGLE SUSPENDER.
3. COMPOUND SUSPENDER: both answering as a scaffold when needed—weight 1 lb.
4. SHIP-BOARDING-HOOK; a boy can easily detach the hook, notwithstanding the force of the current and the heavy load of the schooner or scow.
5. ASCENDER, with brake; this apparatus enables any one to maintain himself at any height without effort or trouble; it is intended particularly for Chief Firemen, Ship Captains and Architects: it is also made purposely for Salvage operated by a single man. Persons provided with this apparatus will be able not only to attain the greatest heights, but, moreover, to operate the descent with the greatest ease and security. Any man with the apparatus, coming out from a window, or ascending to it, can maintain himself there, and take hold of persons in danger, and bring them down without the least danger.
6. DESCENDER. The Fire Escapes having failed to render the services expected of them, I offer a new apparatus that everybody can use to descend from a great height without any extra effort.
7. BRAKE for trains, operated by a single movement.
8. UNCOUPLER. The brakeman obtains this result by a single movement.
9. VENTILATOR. New system of ventilation, by a particular arrangement, will prevent accidents in mines, sickness, and will procure fresh air to mines, vessels, etc.
10. CLEANER. This apparatus is attached to the frame of the locomotive. This Cleaner destroys, cuts, and throws to a great distance snow, sand, gravel, mud, stones or other materials on the rails. No person is required on the front of the engine, the mechanism being operated by steam. The saving realized by this process is enormous.
11. PASS-PORT. Aerial and sub-marine boat. This boat, though different in the two cases cited, is operated on the same principle and governed in the same manner. Four of these boats commanded by ten men each would suffice for the observations and for the protection of Canada.

DO YOU CATCH THE IDEA?

A journal published exclusively for your own trade is more valuable to you and more entitled to your favor than any other. In supporting it you simply benefit yourselves, because it is working in your interest.

Such a paper is the

CANADIAN JOURNAL OF FABRICS,

the only Canadian Journal entirely devoted to Textiles. A sample copy will be mailed FREE, and a year's subscription will only cost you \$1.00. Not much, is it? You may find a single number a bit of information that will be worth ten times the subscription price.

Are you buying or selling machinery, or do you want mill hands? If so, write for advertising rates to

PLACES IN THE NEIGHBORHOOD OF MONTREAL OUTSIDE CITY LIMITS.

COTE ST ANTOINE

located in the county of Hochelaga, district of Montreal. It is principally inhabited by merchants and others doing business in Montreal, who have their private residences here, and may be considered the Western suburb of Montreal. Monklands, at one time the residence of governors of Canada, and now known as Villa Maria, one of the largest and most popular convents in the Dominion, is located here. It is owned by the Congregational nuns, and is under the able management of rev. Sister St Providence. Distant from Montreal, 2 miles. Mail twice a day. Population about 2,000.

LACHINE.

(Incorporated in 1872.)

A town on the River St Lawrence and Island of Montreal (parish of Les Saintes Anges), seigniory of Montreal Island, county of Jacques Cartier, district of Montreal. It is the summer residence of several Montrealers, and has become famous by its annual regattas. Sportsmen meet here daily at the Lachine Boating club, and at the Bel-Air Mansion, Upper Lachine or Dorval. A wealthy company has undertaken to make the Bel-Air race-course one of the best in America. In the winter months it is greatly frequented by pleasure parties, and at all times of the year a drive from Montreal to Lachine by the Upper, and in by the Lower road, is considered a rich treat to the stranger, and even to the citizen of Montreal. Lachine possesses a large brewery, an extensive sawmill, Dominion wire works, wire rope and screw factory, Montreal car wheel and pipe foundries, and the works of the Dominion Bridge Co.; has good local business and extensive lumber trade. The Grand Trunk Railway use several trains a day to Montreal. A ship canal connects the navigable waters at Montreal with Lake St Louis at Lachine. Great North-Western Telegraph Co. have offices here, also a fire alarm system and a complete system of water works. Distant

LAPRAIRIE.

An extensive municipal village and parish of the south shore of the River St. Lawrence, between the Lachine rapids and Victoria bridge, district of Montreal, seigniory and county of the same name. Incorporated March 30, 1846. The parish was erected on the 17th November, 1668. A market is open every day. An aqueduct is constructed. The first railway in British North America was constructed from here to St. Johns in 1836. It was first worked with horses, afterwards by steam, but was discontinued, and the rails taken up a number of years ago. A steamboat maintains regular communication between Montreal and Laprairie. A branch of the Grand Trunk Railway, starting at Fort Covington, in the State of New York, to reach the Victoria bridge, now runs twice a day in close proximity to the village, with a good station and depot, and contributes materially to the future development of the locality, which is considered a very healthy and pleasant summer place. There is also a fire station, thoroughly supplied with new fire apparatus, such as a fire engine and hook and ladders. Fishing and hunting is also largely practised. A new billiard room has been organized. A permanent wharf has been erected, and will be much improved during the present summer. A new channel is also partly made up. The aqueduct is now giving a very good service to the village, and the work of putting up pipes is being done very rapidly in the different streets. The pressure of water in case of fire is also very powerful, as the water is drawn by steam and air pressure, which brings it at a distance of 1,350 feet, from the St. Lawrence river. The premiums upon insurances have also been greatly reduced on account of the recent ameliorations to the fire system apparatus. Great North-Western Telegraph Company has an office here. Distant from Montreal, 19 miles, fare 15 cts.; from St. Johns 18 miles. Mail daily. Population of village about 1,800; of parish 2,200.

ST. HENRY,

Incorporated in 1876. It adjoins the City of Montreal, and formed by the amalgamation of the former villages of Tannery West and Coteau St Augustin. The Town of St Henry is situated in the seigniory of Montreal, county of Hochelaga and district of Montreal. The Lachine canal passes on the south side, and signal stations of the Grand Trunk Railway are situated here at the junctions where the roads branch off east and west, and to Montreal and Lachine. The

Grand Trunk Railway Co., with the aid of the Council of the Town, has erected a siding station, at the curve, near Notre Dame street bridge. The municipality of St Henry is governed by a Mayor and Corporation. A separate permanent Fire and Police force is maintained. The town contains a Roman Catholic college and convent, church and presbytery, and several important industries, amongst others two extensive tanneries, boot and shoe factories, brick yards, Ingersoll Rock Drill Co., Canada and J. & C. Hodgson, rolling mill, the C. W. Williams Manufacturing Co., employing 600 hands, a cotton manufacturing Co., and a public Abattoir and Stock Yard Co. The Council has built a very fine Town Hall, Fire and Police station at the corner of Notre Dame and St James streets, at the cost of \$25,000. Building is being prosecuted briskly, and the town bids fair to rise into some importance. Has Fire and Police system of alarm telegraph. It is now lighted by arc electric light.

ST LAMBERT.*

Village on the south shore of the river St Law-
rence, between Longueuil and Laprairie, di-
rectly opposite Montreal, partly in the seigni-
ory of Laprairie, partly in the barony of Lon-
gueuil, parish of Longueuil, county of Cham-
blay, district of Montreal. There is here a
station of the Grand Trunk railway, with
branch to St Johns and Rouses

Point, situated at the east end of
the Victoria bridge. The terminus of the
Champlain, Shefford and Chambly railway
is located here. From the favorable situ-
ation of this village, and its excellent means
of communication, at all seasons, with
Montreal and the neighboring places, it
promises to become the centre of consid-
erable business. Montreal, Dominion and
Great North-Western Telegraph Co. has an
office here. Communication is had with
Montreal by Grand Trunk Railway mail
trains, and also by suburban trains, which
make 6 trips daily, fare 25c. return tickets.
Distant from Montreal by rail 6 miles, fare
25c. Mail daily. Population about 1200.

* Also called South Montreal.

Donors of \$50 and upwards (paid at one time) are eligible for election as life governors.

Donations or bequests may be made either through the treasurer, secretary, or through the bankers of the Institution, the City and District Savings Bank.

The total number of patients attended during the past year was 13,820. Average cost of each patient twelve cents. All who desire to obtain better personal knowledge of the necessity for such institutions, their practical benefit to the sick poor, and their claims on the liberality of our citizens, are invited to visit the Dispensary during the Physicians' visiting hours on any day (except Sunday), and judge for themselves.

This institution furnishes medical and surgical aid and medicines to the sick poor of every nationality and religion in Montreal.

The attending physicians visit at their own homes those who are unable to come to the Dispensary and too poor to pay.

In restoring to health, it restores to many their only means of support, and thus prevents poverty, pauperism and crime.

It is dependent, chiefly, upon voluntary contributions for its support.

In the event of satisfactory encouragement, this work will be placed in the hands of the Editor-in-Chief, the Assistant
 Editor, the Editor of Statistics, Eight Superintending Revising-Editors and of One Hundred Province-Editors.
 The Eleven volumes to be completed and issued in about two years from date of beginning.

Unwearied research can be relied on in putting on record all that can possibly be learned concerning the Province.
 The work will portray the past, from the landing of the first white man to time of publication of LOVELL'S
 GAZETTEER AND HISTORY OF CANADA.

Let us strive to secure and leave on record a faithful foundation for historians of the future.
 I do not hesitate to say that the entire work will be a true and reliable history of this Canada of ours; it will reveal
 the grandeur of our Country as England's leading Colony, and an ample home for millions.
 Let us tell the people abroad the wonderful progress that is being made in our Cities, Towns, Villages, and in
 entire country.

When the full history of the places throughout the Dominion is written, Canadians, the people of Great Britain
 Ireland, our good neighbors across the line and the people of the outside world will look on our record with amazement.

The following statistics, taken from Government records, are given as a foreshadowing of some of the information
 which will be carefully gathered for this work, from reliable sources, from the lips of early pioneers, and from general
 of unquestioned veracity and literary standing throughout the Dominion.
